Subject: Re: Fwd: TO WHOM IT MAY CONCERN (Silica mine on sale)

The closest I could see is the Broken Arrow Inc mine that is S0270104 that is in section 36 of 21S14W, but it doesn't look like anything that we have a current permit on. By the way, I think this is a different guy than the Brian Mountford who is doing Tintic.

>>> Susan White 3/14/2007 10:12 AM >>>

Does anyone have a permit number Penny can print and file this under? By the Munford is the guy doing the Tintic work.

TO WHOM IT MAY CONCERN

I am sending you this information so that you can have a clear understanding of the silica mine we are selling. This is going to give you an idea of the magnitude of this offer.

A number of years ago we put this property under contract with a Mr. Jack Bryant of Devmar Corporation out of Nevada. He is the one who employed a Mr. George Carouso, a mining and metallurgical engineer, to make a report on the property. Unfortunately a short time after entering into the contract with Mr. Bryant he contacted cancer and the deal was called off. Also since that time Mr. Carouso has also passed away.

Another point of explanation, in the report you will notice that the claims are named Ibex and Whitehorse. You may recall that in 1993 the Federal Government (BML) issued a new set of rules and requirements for establishing mining claims. In the process of meeting these new requirements and to avoid any misunderstanding we re-filed the claims under a new name which are called HARDPAN.

You will notice on page two of the report it talks about IBEX claim No. 4 being in a wilderness study area, for obvious reasons we are no longer carrying this claim. There are a total of six legitimate claims with all assessment work and filings current. There is an estimate 150 to 180 million tons of silica above ground on these six claims.

Our interest could be to sell the claims outright but more developing the property and meeting the various needs of silica users. I appreciate any interest you might have and we are open to negotiate a good offer from you.

J.E. Vickman is my representative of promoting the sale of this property if you have been contacted by him or any of his associates.

Please feel free to talk to me directly with any questions or comments

Sincerely Yours

C. Robert Mulford
